**Interactive Virtual Field Trips**  
**Just for you and your students**

Burritt's education team offers numerous Interactive Virtual Field Trips for your class to experience history, science, the arts and more. These virtual field trips are hosted live by a Burritt educator who will present the lesson at a grade appropriate level and be available for questions. Many of our programs include hands-on activities during the lesson, as well as optional before and after activities. We will send you directions and supply lists as needed for hands-on activities and for activities that you can do before and after the Interactive Virtual Field Trip.
